Student Information | <http://nakpan.info/studentinfo/intro.php>

This is an application that allows a teacher to manage their student's information. The teacher is able to view all the information without signing in but must sign in to be able to add, update, or delete student information. The teacher can set up a new account if they do not already have one, and can also change their password once they sign in.

(Demo option included)

Technologies Used: HTML/CSS JavaScript PHP SQL
